OBJECTIVE

Motivated Computer Science and Engineering student seeking a Software Engineer / Full Stack Developer position to apply strong foundations in full-stack development, REST API design, and database management, while contributing to the design and delivery of scalable, reliable software solutions.

EDUCATIONAL QUALIFICATION

B.E. Computer Science and Engineering (2023 – 2027)

University College of Engineering, Arni (Anna University)

CGPA: 8.27 / 10

Higher Secondary (12th Standard) (2022 – 2023)

St. Joseph's Girls Higher Secondary School, State Board

Percentage: 81.33%

PROJECTS

Courier Management System | Python, FastAPI, Angular, HTML, CSS, MySQL

GitHub: github.com/priya29-hash/courier-management-system

- Developed a full-stack courier management web application for tracking and delivery status.
- Built REST API endpoints using FastAPI and integrated the Angular frontend with backend services.
- Implemented modules for employee management, delivery tracking, vehicles, and payments using MySQL.

UCE Arni AI College Information Chatbot | Flowise, Google Gemini API

GitHub: github.com/priya29-hash/uce-arni-college-chatbot

- Developed an AI-powered chatbot to answer student queries about college information and services.
- Built a knowledge base covering admissions, academics, and events using Flowise and Google Gemini API.

TECHNICAL SKILLS

Programming: Python, C

Web Technologies: HTML, CSS, Angular

Backend & Database: FastAPI, REST APIs, MySQL

Tools: Git, GitHub, VS Code

AI Tools: Flowise, Google Gemini API

INTERNSHIP EXPERIENCE

Python Full Stack Development Intern (1 Month)

Femtosoft Technology

- Trained across FastAPI backend, Angular frontend, and MySQL database layers in Python full-stack development.
- Built core modules of the Courier Management System — employee management, delivery tracking, vehicle management, and payment handling.
- Designed and implemented REST API endpoints using FastAPI to handle CRUD operations for courier and delivery data.
- Integrated Angular components with backend APIs and designed relational schemas in MySQL supporting the application's core modules.

Web Development Intern (15 Days)

CodeBind Technology

- Trained in HTML and CSS fundamentals, focusing on semantic markup, responsive layouts, and styling best practices.
- Developed a tribute webpage from scratch, applying concepts of box model, flexbox, and typography.
- Practiced structuring clean, well-organized front-end code following web development best practices.

ACHIEVEMENTS

- Secured Third Prize in TECHATHON – Third Year CSE.

CO-CURRICULAR ACTIVITIES

- Volunteered in NSS Activities at a Government School.
